## ULTEGRA® SERIES GENERAL PURPOSE BENCH SCALE

Fairbanks' Ultegra Series General Purpose Bench Scales are rugged and reliable. These low profile scales can be used in a variety of non-washdown, general weighing applications up to 150 lbs. There are more than 50,000 Ultegra scales currently in use worldwide.

### RUGGED DESIGN

These bench scales are made of a high impact ABS composite material which makes them lightweight, yet extremely rugged. The ABS composite is reinforced with molded structural ribs which provide maximum strength for up to 300% overload protection. These bench scales are also built to handle the abuse often found in industrial environments, while requiring very little maintenance.

### ACCURATE

The Ultegra Series is built to control deflection, which significantly increases accuracy. These scales provide an accuracy of 0.05 lbs from 0 to 150 lbs.

### SIMPLE TO USE

Two key operation (units and zero) is designed for maximum efficiency. Just select a unit of measure, place the object on the scale and read the display. The zero key zeros the scale or allows for filling or checkweighing operations. The textured weighing surface reduces surface tension and allows boxes to slide

easily across the scale. To maximize operator efficiency, a roller top model is also available. An optional remote display with an eight-foot cable allows for more convenient weight viewing.

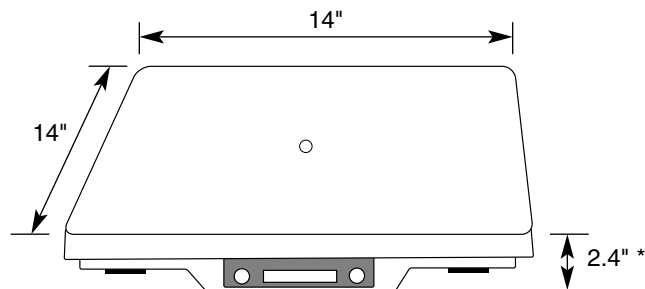

### UPS SOFTWARE COMPATIBLE

This bench scale can be used for UPS shipping. All you need is a computer and the UPS software.

### SPECIFICATIONS

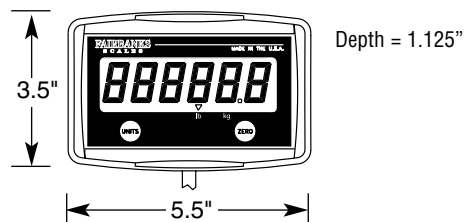

Capacity . . . . .	150 lbs (68 kg)
Platform Size . . . . .	14" x 14" x 2.4"; 14" x 14" x 3.57" (Roller top model)
Division Size . . . . .	0.05 lbs (0.02 kg)
Output . . . . .	Fixed format RS232C (includes 8' cable)
Power Requirements . . . . .	50/60 Hz, 120/240 VAC selectable
Primary Display . . . . .	0.5" high LCD
Accessories . . . . .	Remote LCD Display with 0.9" characters and an 8' cable; Display pillar; Counter Insert
NTEP COC# . . . . .	98-198A1

### DIMENSIONS

\* With roller top, the height of the scale is 3.57"

### Optional Remote Display
